Your guide to

OUR PRICES

Price List effective from 1st January 2020

WELCOME TO YOUR GUIDE TO OUR PRICING

This latest guide to our prices provides you with extensive, easy-to-use pricing and other useful information on Istock bricks, specials shapes and our extensive range of innovative clay products.

The guide continues with the format of pricing bricks both by the **thousand** and by the **square metre**. You will continue to order bricks in the usual way (per 1000) but the price per square metre will enable you to **compare Istock Brick prices** with other cladding materials.

The **in-depth index** provides technical and packaging information whilst details of Istock Brick's delivery services are also included. There is also a convenient table to help you to use the price guide together with information on ordering requirements.

Technical & Design Advice 0844 800 4576

The Istock Design Advice Service, supported by advanced CAD technology, is provided free of charge to help create innovative design solutions for architects working with brick and other Istock Brick products.

CPD seminars covering design, technical and practical workmanship issues can also be provided on request. Call the help line above to discuss your project or arrange a seminar with one of our experienced design advisors.

Our Technical Services Team will be happy to provide advice to help solve your brickwork problems. For immediate assistance in any aspect in the use of Istock Brick products, please call the helpline above.

Samples 0844 800 4578

Ibstock Brick's industry-leading sample service is available for all products. Easy to use, just contact your local sales office and place your order quoting the product code and name.

The standard sample, the super-light project panel made from recycled materials, is easy to carry and shows a representative sample of the product using brick slips. Care has been taken to ensure acceptability by Planning Authorities for planning application purposes.

Larger sample panels for displaying the variety and texture of Ibstock products to their fullest are available through your local representative. Please allow 2-3 days for delivery. British Standard site panels are also available for specified projects upon request.

Sales Support 0844 800 4575

The Ibstock Brick National Field Sales Force is supported by our Customer Service Teams located at sales offices throughout the UK.

For enquiries, samples, literature or confirmation of order details, please call your nearest sales office. All contact details are listed on page 4, the "How to Order" page. For ease of reference, the contact numbers are also shown on the back cover of the Price Guide.

* The Istock Pallet Carrier Service is an alternative solution for delivery of 4 packs or less (upto 2,000 bricks depending on pack size), where mechanical offload is NOT required.

** These charges are only applicable, when maximum vehicle capacity is **not** achieved (refer to product load matrix)+Price on application.

*** Price on application

How to establish your additional charge for a load under maximum vehicle capacity

1. Establish your delivered county.
2. Establish the factory from where the bricks are being delivered.
3. Go to table 1 (England & Wales) or table 2 (Scotland) & identify the zone (A-N).
4. Then go to table 3 to identify the additional nett lump sum charge based on the required quantity.
5. Part load deliveries will normally be delivered within 5 working days (subject to availability).
6. For more information about all Istock delivery services including pallet carrier, see page 60-61.

Important information about CE Marking and the Construction Products Regulation (CPR)

Key facts

- From 1st July 2013 it became mandatory for any construction product, covered by a harmonised European Standard (hEN) containing a 'ZA' annexe, to carry a Declaration of Performance (DoP) and a CE mark.
- Products not covered by hENs but with a European Technical Approval (ETA) may be CE marked.
- Products not falling under the scope of a hEN or ETA must not carry a CE mark. However most construction products will eventually have a harmonised European Standard.
- Standard format clay brick and pavers have been covered by hENs since 2003 and Ibstock bricks have been CE marking since then. The mark and technical information are supplied on despatch paperwork.
- Although bespoke and 'one off' special products will not fall under the scope of the hEN and require CE marking, special shaped bricks must carry the CE marking.
- CE marking is not a 'quality' standard, it simply confirms that a product has been manufactured to a performance standard that defines the characteristics of the product and is understood throughout the European Union.

What it means for Ibstock stockists:

Our bricks and pavers are supplied in packs of multiple units. When those packs are sold or opened and sold on in smaller quantities, it will be the responsibility of the distributor to ensure that they pass on the relevant CE marking and Declaration of Performance information to the product's final destination. Ibstock will ensure that all necessary information will be readily accessible to help our customers meet their legal obligations.

We advise against keeping printed copies of the certification as these will become out of date. The latest versions will be available from our website. The Certificate of Factory Production Control is verified through third party assessors and therefore stockists and distributors will not be required to keep copies.

Which standards apply to Ibstock bricks and pavers?

Bricks and special shapes: EN771-1

Pavers: EN1344
